

Web Developer

John Williams

Objective

Recently self-taught programmer looking for an entry-level or junior position in the field of web development with a focus on the front-end (HTML, CSS, Sass, React) or the backend (MERN stack). Most interested in opportunities with mentorship and a natural progression into the industry.

Experience

May 2021 - Current

Bootcamp *Self-Taught*

An intense, accelerated program designed to transition into a career in web development in 4-6 months. Specific focus was given to modern web development and design patterns, including ES6, Typescript, React, Sass, and the like. All code is available on [Github](#). Courses included but were not limited to:

[The Complete Web Dev Bootcamp](#) by Colt Steele

[React: The Complete Guide](#) by Max Schwarzmüller

[React+Typescript: Portfolio Project](#) by Stephen Grider

[Javascript Algos and Data Structures](#) by Colt Steele

[Advanced CSS and Sass](#) by Jonas Schmedtmann

Examples of work: [Ledgerline](#), [YelpCamp](#), [React Meetup](#), [JS\(X\) Book](#), [Nexter](#)

August 2014 – May 2021

Band Director *Various Institutions*

Responsible for countless concert, marching, jazz, and pep bands, touching the lives of students from elementary through collegiate levels. Focused particularly on the analytical aspect of the profession like tone production, balance, blend, troubleshooting, and spent considerable hours reforming programs' organization and long-term strategy. Brought countless successful projects from concept to completion. Selected for department leadership. Staff of various responsibility levels for several state-finalist marching bands. Specific band director resumé available on request.

Education
